

Doculus Lumus®

...See the Truth Inside!

At the frontline, usually only 30 seconds remain for the examination of a document and to decide whether a fraudulent ID document/passport/bank note is present or not. Whether you are a border, police or customs officer checking passports, ID-cards, bank notes etc. or a doctor, art specialist or collector looking at any attributes.

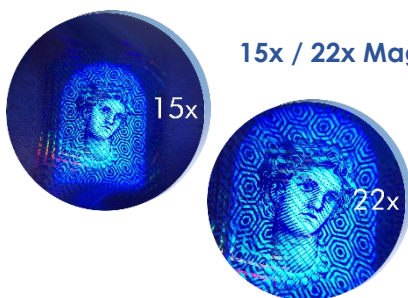

Doculus Lumus® is a pocket microscope for every specialist who knows where to look!

Dive into the stunning world of microscopy...

Doculus Lumus® is your gateway into the fascinating world of microscopy. Depending on the field of use, 15x and 22x magnification allows to see security features through a high quality glass lens system.

15x / 22x Magnification
